***Another Exciting Seminar
Brought to You by
The Nautical Institute
HK Branch!***

From 1999 – 2010 the Nautical Institute Hong Kong Branch has held biennial seminars for the marine industry. These seminars have proved to be of great value for those who attend, with past topics including maritime security and terrorism, cargo care, the history of Hong Kong as a port and recruiting seafarers for the future.

The Branch's 2011 seminar will address the key issues of the future of the Port, managing future risks and security issues and other pressures on the seafarer with the aim of provoking discussion on the problems & solutions.
